DeskCharm

Culture-led desktop wellness: a charm people love, habits that stick.

Investor & incubator deck · October 2026

PROBLEM

Desk work quietly wears people down

Sitting

Long hours in one chair, few real breaks, sore necks and backs.

Forgetting

Water, stretching and breathing get lost in back-to-back work.

Screen fatigue

Most break apps are cold timers that people mute within a week.

SOLUTION

A charm that cares, right on the desktop

- A physics charm people want to touch
- Visitors and festivals bring delight
- Gentle nudges: breaks, water, breathing, posture, mood, focus
